## BUREAU OF ANIMAL INDUSTRY.

A. D. MELVIN, Chief of Bureau.

---

### SERVICE ANNOUNCEMENTS.

WASHINGTON, D. C., JUNE 15, 1908.

---

[This publication is designed to disseminate information and instructions to persons in the service of the Bureau of Animal Industry. It is not intended for the public, and employees are cautioned against giving or showing copies to outsiders. A supply will be sent to each official in charge of a station or branch of the service, who should promptly distribute copies to all members of his force. A file should be kept at each station for reference.]

---

#### CHANGES IN MEAT INSPECTION DIRECTORY.

The following changes have been made since those indicated in Service Announcements of May 15, 1908:

##### Inspection Inaugurated.

No. 2Z. Armour & Co., 312 West Front street, Wilmington, Del.; Dr. J. W. Montague, inspector in charge.

No. 3P. Swift & Co., Railroad avenue, Elmira, N. Y.; John J. Ochs, inspector in charge.

No. 3Q. Swift & Co., Third street, between Ralston and Bell, Reno, Nev.; Dr. E. A. Bundy, inspector in charge.

No. 10A. Denison Bros., 36 Pleasant street, Claremont, N. H.; Dr. M. H. Davitt, inspector in charge.

No. 12H. Kingan & Co. (Limited), 446 Drumm street, San Francisco, Cal.; Dr. George S. Baker, inspector in charge.

No. 20H. Schwarzschild & Sulzberger Company, Thirty-fourth street and Eleventh avenue, New York, N. Y.; Dr. U. G. Houck, inspector in charge.

No. 50. The Cudahy Packing Company, Calhoun and Tennessee streets, Memphis, Tenn.; W. S. Tindall, inspector in charge.

No. 51. Dover Beef Company, 11-13 Fourth street, Dover, N. H.; Harris F. Gordon, inspector in charge.

No. 72A. Western Meat Company, Sixth and Townsend streets, San Francisco, Cal.; Dr. George S. Baker, inspector in charge.

No. \*81. Schmauss & Co., 313 East State street, Rockford, Ill.; Dr. Boyd Baldwin, inspector in charge.

---

\*Conducts slaughtering.

No. \*88. North Augusta Slaughter House, Augusta, Ga.; Dr. J. B. Boazman, inspector in charge.

No. 96. W. G. Rehn, 454 Bank street, Cincinnati, Ohio; Dr. E. L. Bertram, inspector in charge.

No. 102. Christie Canning Company, 1200 Missouri street, El Paso, Tex.; Dr. T. A. Bray, inspector in charge.

No. \*103. August Freund, Third and Central streets, Kansas City, Kans.; Dr. L. R. Baker, inspector in charge.

No. 683. Kahn-Beck Company, 839 Vincent street, Los Angeles, Cal.; Dr. A. E. Rishel, inspector in charge.

#### Inspection Discontinued.

No. 5. A. H. Edwards, 112 Brunswick avenue, Trenton, N. J.

No. 83. O. F. Reimer, 54 North Peoria street, Chicago, Ill.

No. 115. Jacob Lusch, Riverside, N. J.

No. 155. Taylor & Crooks, 132 West Second street, Chester, Pa.

No. \*284. Union Meat Company, San Antonio, Tex.

No. \*393. Charles P. Reese & Co., 3034 Market street, West Philadelphia, Pa.

No. 700. American Compressed Food Company, Central avenue, Passaic, N. J.

No. \*722. Adam Schwarzott, 774 Babcock street, Buffalo, N. Y.

No. 733. E. J. Ward, Saegerstown, Pa.

#### New Stations.

Augusta, Ga., Dr. J. B. Boazman, care A. Rosenthal, 26 Thirteenth street, inspector in charge.

Dover, N. H., Harris F. Gordon, care Dover Beef Company, inspector in charge.

Elmira, N. Y., John J. Ochs, care Swift & Co., inspector in charge.

Rockford, Ill., Dr. Boyd Baldwin, care Schmauss & Co., inspector in charge.

#### Station Discontinued.

Saegerstown, Pa.

#### Changes in Firm Names.

No. \*299. The Canadian Packing Company (Limited), Fourth and Griswold streets, Port Huron, Mich., instead of Huron Packing Company.

No. \*384. D. B. Martin Company, Beiswanger Brothers' Department, Thirtieth and Race streets, Philadelphia, Pa., instead of Beiswanger Brothers (Incorporated).

No. 404. Frederick Figge Company, 285-289 Atlantic avenue, Brooklyn, N. Y., instead of Fred Figge.

No. 429. Falchero Brothers, 66 West Third street, New York, N. Y., instead of E. M. Gualdi & Co.

No. 462. Gilbert Parker & Co. (Incorporated), 68 Valley street, East Providence, R. I., instead of Hope Refining Company.

No. \*580. Sullivan Packing Company, 256-258 Beecher avenue, Detroit, Mich., instead of Sullivan Beef Company.

No. 708. G. G. Moulthrop, 1 Henry street, Binghamton, N. Y., instead of E. B. Moulthrop.

#### Change in Address of Firm.

No. 349. A. M. Zimmerman Company, 16-18 Clinton street, Boston, Mass., instead of 37½ South Market street.

#### Change in Inspector in Charge.

Corydon, Ind., Dr. O. E. Lindburg, instead of Dr. Boyd Baldwin.

### Changes in Addresses of Inspectors.

Dr. H. A. Hedrick, room 426 Custom-House Building, Baltimore, Md., instead of 215 St. Paul street.

Dr. John A. Sloan, care San Antonio Packing Company, San Antonio, Tex., instead of care Union Meat Company.

### Names Added to Address List.

Dr. J. B. Boazman, care A. Rosenthal, 26 Thirteenth street, Augusta, Ga.

Harris F. Gordon, care Dover Beef Company, Dover, N. H.

Dr. O. E. Lindburg, care Corydon Packing Company, Corydon, Ind.

John J. Ochs, care Swift & Co., Elmira, N. Y.

---

## INSTRUCTIONS CONCERNING MEAT INSPECTION.

### New Padlocks for the Meat Inspection Service.

The Bureau has adopted a new padlock for use in official establishments and will issue them upon regular requisition. One master key will be furnished for the inspector in charge, and if more are needed he should specify the number and explain the necessity. This lock was selected from among the best on the market and is expected to give satisfaction. No steel or other corroding metal enters into its construction. No oil should be used on the locks, but if they are found to work stiffly they should be dipped in gasoline. The locks and keys are expensive and employees are cautioned to exercise care in their use. Inspectors in charge are directed to report immediately the loss of any key or lock or damage to a lock. Where loss or damage is due to the negligence of an employee he will be required to pay the value of the key or lock.

### Inspection of Sweet Pickled and Smoked Meats.

On account of the approaching warm weather special attention should be given to inspecting meats such as those which have been sweet pickled and smoked. Inspectors in charge will require employees to devote as much time as possible to this work, and if each piece can not be inspected as large a percentage as possible should be inspected. If the managements of official establishments do not provide competent inspection, it will be necessary for the Bureau to furnish additional meat inspectors.

### Ink for Marking Cured Meats.

Many inquiries are received from inspectors concerning the use of various inks for marking cured meats. The regular purple branding ink furnished by the Bureau will give satisfactory results when applied to meats with a metal brand after soaking and just before going into smoke, provided the excess of moisture on the surface of the meat is removed by scraping or otherwise. It has been recently found that when 5 per cent of lampblack is added to the regular branding ink a darker colored mark will be secured. Inspectors in charge may permit the use of the regular purple branding ink, or this ink with 5 per cent of pure lampblack added, for marking cured meats. It is not permissible to use other inks for marking inspected and passed meats.

### Use of "F. L. P." on Meats Prohibited.

Inspectors are advised that a substance known as "F. L. P.," manufactured by the Preservaline Manufacturing Company, of New York, N. Y., and sold as a meat-curing agent, has been found to contain borax. Its use on meats and meat food products is therefore prohibited by the regulations of the Secretary of Agriculture.

### **Reporting Transfer of Unmarked Inspected Meat.**

The transfer, either by car or wagon, of inspected and passed meat which does not bear the mark of inspection, from one official establishment to another at the same station (as well as between stations), in accordance with Regulation 25, section 12, B. A. I. Order 150, should be reported to the Washington office promptly on I. D. Form 109F.

### **Meats Prepared Prior to October 1, 1906.**

Referring to instructions in Service Announcements of April 15, 1908, on the subject of "Meats prepared prior to October 1, 1906," inspectors in charge of meat inspection may consider this as special permission under which an official establishment may ship to or receive from another official establishment canned meat food products prepared prior to October 1, 1906, representative samples of which are known to have been chemically examined by the Department and found to contain no substance prohibited by the regulations.

The inspector in charge of the station at which the consignor establishment is located shall report promptly by letter to the inspector in charge of the station at which the consignee establishment is located each shipment made under this special permission, such report to contain the name of the product, number of cases, number and weight of cans in each case, and date of shipment. A copy of this report shall be mailed promptly to the Washington office.

Special attention should be given to products prepared prior to October 1, 1906, in order to prevent the movement of any which have become unsound, unwholesome, or otherwise unfit for human food.

### **Marking Containers of Inedible Fats.**

Inspectors in charge of meat inspection are advised that under paragraph 6, section 19, Regulation 25 of B. A. I. Order 150 (Amendment 1), the ends of the containers of inedible grease, inedible tallow, or other inedible fat which has not been denatured shall be painted white and conspicuously stenciled or burned with the true name of the product and the word "INEDIBLE."

Respecting the requirement of paragraph 5, section 19, Regulation 25, under which denaturing is necessary, it will be observed that no reference is made to marking the containers of an inedible product which has been denatured. This point, however, so far as official establishments are concerned, is covered by paragraph 7, section 4, Regulation 23, which reads: "Final containers, such as tierces, shall be appropriately marked on both ends immediately after filling." The Bureau rules that under this requirement the ends of the containers of inedible grease, inedible tallow, or other inedible fats, including condemned products, shall be painted white and conspicuously stenciled or burned with the true name of the product and the word "INEDIBLE."

### **Reporting Smoked or Boiled Meats.**

The smoking or boiling of meat or meat food products is considered "processing" under the regulations, and should be carefully supervised by a Bureau employee. All meats so treated should be reported on I. D. Form 130, under the head of "Miscellaneous products."

### **Defective Reports on I. D. Form 112F.**

Many reports on I. D. Form 112F are received which are not signed by the veterinary inspector and do not give the establishment number nor the date. These items should be given, and the species of animal should be shown in the upper left-hand corner of the report.

## Reports of Post-Mortem Examination of Tuberculous Cattle.

Bureau Circular ZY-329, of May 21, 1908, relates only to carcasses of cattle. Reports on I. D. Form 112D, covering the final post-mortem examination of carcasses of cattle retained for tuberculosis, should show the sex of the animal and the general appearance of the carcass, classing it as "Good," "Fair," or "Poor," as the case may be.

### Revised I. D. Forms 110E and 130.

I. D. Forms 110E and 130 have been revised. The revised blanks will be distributed to all meat-inspection stations before July 1 next, and on and after that date they shall be used in lieu of the forms at present designated by those numbers. The supply of the latter remaining on hand at the close of business on June 30 should be destroyed.

## ASSAULT ON BUREAU INSPECTOR PUNISHED.

In the Federal court at Indianapolis on May 20 last, Fred Waldsmith and Edward Clouser, employees of W. C. Routh & Co. (establishment No. 592), Logansport, Ind., pleaded guilty to the charge of assault upon United States Meat Inspector David M. Coppock while in discharge of his official duties, and were fined by the court.

## SUBSTANCES PERMITTED FOR OFFICIAL DIPPING OF SHEEP.

The use of the following-named substance is permitted by the Department in the official dipping of sheep for scabies:

"*Dayton's Disinfectant Daytholeum No. 1*," a coal-tar creosote dip, manufactured by W. H. Dayton, Cleveland, Ohio. Dilution permitted, 1 gallon of Dayton's Disinfectant Daytholeum No. 1 to not more than 56 gallons of water.

This dip should not be confused with Dayton's Disinfectant Daytholeum, the use of which was authorized in official dipping by Service Announcements of September 16, 1907, page 7. Only those packages which are labeled Dayton's Disinfectant Daytholeum No. 1 may be diluted in proportion of 1 gallon to 56 gallons of water. Packages labeled Dayton's Disinfectant Daytholeum should be used only in the proportion of 1 gallon to 49 gallons of water.

Inspectors will not permit the use in official dipping of packages of this dip which are not labeled in accordance with the above specifications, nor will they permit the use in official dipping of any proprietary dip which does not bear the guaranty required of manufacturers by the regulations, B. A. I. Order 143 and amendments thereto, or which in any manner violates the provisions of said regulations or amendments.

### Change in Name of Dip.

"*Creaseptic*."—The name of "*Creoltin*," a coal-tar creosote dip, the use of which was authorized by Service Announcements of September 16, 1907, page 7, has been changed to "*Creaseptic*." The dilution permitted is 1 gallon of *Creaseptic* to 70 gallons of water, instead of 1 gallon of *Creoltin* to 74 gallons of water.

### Change in Name of Manufacturer.

"*B. C. Cresol Dip*."—The name of the manufacturer of this dip, the use of which was authorized by Service Announcements of April 15, 1908, page 40, has been changed from Burns-Caldwell (Incorporated) to Foster Burns & Co., and the latter name will in future be shown on the label.

### DIPPING CATTLE FOR SCABIES.

As neither B. A. I. Order 143 nor recent instructions concerning the preparation and application of dips specifies the time that cattle shall be held in the dip, employees are advised that cattle which have been exposed to scabies but are not themselves affected with the disease should, after being thoroughly immersed, be passed through the vat without holding. Cattle affected with scabies should receive special attention by applying the dip from a hose or bucket to the neck, withers, and back, where the disease usually appears, and also by scrubbing these parts as the animals pass through the vat.

When an emulsion of Beaumont crude petroleum or similar oil is used for the treatment of cattle for scabies, it is only necessary that all parts of the skin and hair of the animals treated be thoroughly wet with the emulsion, which the inspector must see is kept thoroughly mixed at all times.

Great care shall be exercised in the handling of animals suffering from debility, and they should be dipped only when provision is made for their subsequent care until they have fully recovered from the effect of the treatment.

The provisions of Regulation 34, B. A. I. Order 143, should be construed to apply to cattle as well as to sheep.

---

### RECOMMENDATION OF DIPS BY EMPLOYEES FORBIDDEN.

All employees are especially cautioned not to recommend or favor in any way whatsoever any particular dip for the treatment of cattle or sheep for scabies. Any one of the preparations permitted in official dipping may be used as specified in Bureau instructions, but the owner of the animals shall always select the one of the permitted dips to be used. All inquiries regarding the efficiency of dips should be referred to the Washington office for reply.

---

### FORM OF APPLICATION FOR LEAVE WITHOUT PAY.

It is noted that employees applying for leave of absence without pay have in some instances made use of the forms intended for application for annual leave or extension of annual leave on account of sickness, altering them by the insertion of the words "without pay" or other similar change. These forms should be used only for the purposes intended, and all applications for leave without pay should be made by letter addressed to the Chief of the Bureau through the inspector in charge at the station where the employee requesting leave is assigned.

---

### FREE TRANSPORTATION TO BE SHOWN IN EXPENSE ACCOUNTS.

Employees will observe the following requirement in rendering expense accounts: When travel is performed without cost—i. e., on a pass or other courtesy extended by transportation companies—the fact should be set forth in the voucher with the notation "no charge."

---

### INSTRUCTIONS CONCERNING CORRESPONDENCE AND FILES.

#### Additional Subjects for Letter Files.

##### *Numerical List.*

- 476. Paraguay, restrictions against importation of cattle and meats.
- 477. Wyoming, movement of animals into.
- 478. Fish, miscellaneous.

- 479. Hogs, miscellaneous.
- 480. California, mange among cattle.
- 481. Maps, printing of, etc.
- 482. Milk fever.
- 483. Force at Ames, Iowa.
- 484. Poisoning of animals by eating plants.
- 485. Diseases among employees of establishments.
- 486. Force at Oklahoma, Okla. (Texas fever).
- 487. Panama, restrictions against importation of meats and cattle.
- 488. Natal, diseases of animals, and restrictions against importation of animals and meats.
- 489. Force at Corydon, Ind.
- 490. Leeches.
- 491. Quarantine station at Philadelphia, Pa.
- 492. Force at Rockford, Ill.

*Alphabetical List.*

- 484. Animals, poisoning by eating plants.
- 480. California, mange among cattle.
- 485. Diseases among employees of establishments.

- 488. Natal, diseases of animals, and restrictions against importation of cattle and meats.
- 487. Panama, restrictions against importation of cattle and meats.
- 476. Paraguay, restrictions against importation of cattle and meats.
- 491. Philadelphia, Pa., quarantine station for imported animals.
- 484. Poisoning of animals by eating plants.
- 477. Wyoming, movement of animals into.

---

**PUBLICATIONS IN MAY.**

[Publications intended for employees are sent in bulk to inspectors in charge at the different stations, and no mailing list of individual employees is kept. Owing to the limited editions and the large number of Bureau employees, as a rule only sufficient copies are sent to supply the veterinarians. Inspectors in charge will therefore see that the veterinary inspectors are first supplied, and if more copies are received than are necessary for this purpose the excess may be distributed to others. Requests from employees for publications will be complied with as far as practicable. Regulations will be supplied to inspectors in charge as freely as may be required for official use.]

Bulletin 104. Medical Milk Commissions and the Production of Certified Milk in the United States. By Clarence B. Lane. Pp. 43, pls. 6, figs. 11.

Bulletin 106. Experiments on the Digestibility of Prickly Pear by Cattle. By R. F. Hare. Pp. 38, pl. 1, fig. 1.

Circular 97, revised. How to Get Rid of Cattle Ticks. By R. P. Steddom. Pp. 4, fig. 1.

Circular 113, revised. Classification for American Carriage Horses. By George M. Rommel. Pp. 4.

Circular 132. A Practical Method for the Detection of Beef Fat in Lard. By James A. Emery. Pp. 9.

## SERVICE CHANGES IN MAY.

## Appointed.

- Addison, Miss Birdie, charwoman, Kansas City, Kans.  
 Allen, T. A., expert in animal diseases, Ponce, P. R.  
 Bascom, Dorus C., agent in scabies eradication, Bismarck, N. Dak.  
 Becker, Charles J., veterinary inspector, Nashville, Tenn. (field).  
 Bell, Thomas, clerk-typewriter, Oklahoma, Okla. (field).  
 Blount, S. L., unskilled laborer (emergency), Washington, D. C.  
 Blackburn, William J., agent in scabies eradication, Kansas City, Kans. (field).  
 Breininger, Charles B., veterinary inspector, Chicago, Ill.  
 Brough, William, mechanic, Washington, D. C.  
 Bushee, Glenn A., agent in scabies eradication, Pendleton, Oreg.  
 Butterfield, A. J., agent in scabies eradication, Denver, Colo. (field).  
 Cameron, Adrian L., inspector's assistant, South Omaha, Nebr. (meat inspection).  
 Coleman, H. H., agent in tick eradication, New Orleans, La.  
 Cota, Charles, unskilled laborer (temporary), Middlebury, Vt.  
 Cota, Fred, unskilled laborer (temporary), Middlebury, Vt.  
 Cota, Joseph, unskilled laborer (temporary), Middlebury, Vt.  
 Cowles, Allen P., messenger boy, Washington, D. C.  
 Crawford, Albert C., physiologist, Washington, D. C. (transferred from Bureau of Plant Industry).  
 Culbert, R. W., veterinary inspector, Chicago, Ill.  
 Dean, Edward M., agent in scabies eradication, Kansas City, Kans. (field).  
 Desjadon, Simon, laborer, Middlebury, Vt.  
 Digman, Robert J., veterinary inspector, Chicago, Ill.  
 Dolan, F. F., agent in scabies eradication, Denver, Colo. (field).  
 Dyson, Robert, unskilled laborer (emergency), Washington, D. C.  
 Farr, Ernest, agent in scabies eradication, Denver, Colo. (field).  
 Fittz, Arthur, unskilled laborer (temporary), Middlebury, Vt.  
 Gaines, John L., agent in tick eradication, Atlanta, Ga.  
 Garrett, H. W., agent in tick eradication, New Orleans, La.  
 Gross, John L., veterinary inspector, Chicago, Ill.  
 Hart, Joseph, plumber's helper (temporary), Washington, D. C.  
 Huff, T. Barnett, veterinary inspector, Chicago, Ill.  
 Hutsell, Tice, agent in scabies eradication, Denver, Colo. (field).  
 Johnson, Edward, agent in tick eradication, Atlanta, Ga.  
 Kailer, Warren C., veterinary inspector, Denver Colo. (field).  
 Lampe, William H. G., veterinary inspector, Nashville, Tenn. (field).  
 Leaf, Roy, inspector's assistant, Walla Walla, Wash.  
 Lee, Fred M., laborer, Middlebury, Vt.  
 Lee, Walter T., laborer, Middlebury, Vt.  
 Lombard, C. M., veterinary inspector, Chicago, Ill.  
 Moore, E. L., collaborator, Brookings, S. Dak.  
 Moore, Harrison A., clerk-typewriter, Nashville, Tenn. (field).  
 Olmsted, Orrin E. G., veterinary inspector, Chicago, Ill.  
 Ortiz, Carlos, expert in animal diseases, San Juan, P. R.  
 Osborn, William F., veterinary inspector, Chicago, Ill.  
 Page, Samuel M., veterinary inspector, Chicago, Ill.  
 Phemister, Benjamin F., inspector's assistant, Allentown, Pa.  
 Plummer, M. T., veterinary inspector, Chicago, Ill.  
 Porter, Harry W., clerk, Washington, D. C. (transferred from Forest Service).  
 Query, A. J., agent in tick eradication, Atlanta, Ga.

Quillian, Charles M., agent in tick eradication, Atlanta, Ga.  
 Rabild, Helmer, expert in dairying, Washington, D. C.  
 Rankin, Earl M., clerk-typewriter (temporary), San Francisco, Cal.  
 Rhodes, L. C., agent in scabies eradication, Bismarck, N. Dak.  
 Richards, William R., veterinary inspector, Chicago, Ill.  
 Robinson, M. F., agent in tick eradication, New Orleans, La.  
 Rush, J. R., agent in tick eradication, New Orleans, La.  
 Sears, William, unskilled laborer (temporary), Middlebury, Vt.  
 Sheffel, Joseph, agent in scabies eradication, Denver, Colo. (field).  
 Smart, H. S., agent in scabies eradication, Sacramento, Cal.  
 Smith, John M., plumber's helper (temporary), Washington, D. C.  
 Snellings, Charles B., laboratory assistant, Washington, D. C. (transferred from Bureau of Plant Industry).  
 Thorpe, Ira, inspector's assistant, New Orleans, La.  
 Voigt, Henry W., unskilled laborer, Bethesda, Md.  
 Walsh, Stephen P., meat inspector, Salt Lake City, Utah.  
 Waters, John T., agent in tick eradication, Atlanta, Ga.  
 Webb, Clarence O., clerk-typewriter, New Orleans, La.  
 Willis, W. D., agent in tick eradication, New Orleans, La.  
 Wilson, Howard C., veterinary inspector, Chicago, Ill.  
 Wright, T. M., agent in tick eradication, Atlanta, Ga.

#### Reinstated.

Bundrant, William C., inspector's assistant, National Stock Yards, Ill.  
 McMullen, Robert H., veterinary inspector, Denver, Colo. (field).  
 Roche, Thomas, meat inspector, Brooklyn, N. Y.

#### Resigned.

Bosley, Harry, veterinary inspector, Chicago, Ill.  
 Keinath, Charles F., meat inspector, Cleveland, Ohio.  
 Lee, John H., meat inspector, Spokane, Wash.  
 Pitney, Albert L., special agent, Washington, D. C.  
 Prien, Roland H., agent in scabies eradication, Denver, Colo. (field).  
 Rucker, Harry, clerk-typewriter, San Francisco, Cal.  
 Smith, Walter E., inspector's assistant, Louisville, Ky.  
 Stewart, Charles M., clerk (stenographer and typewriter), Nashville, Tenn. (field).

#### Services Terminated.

Atchison, James G., veterinary inspector (temporary), Chicago, Ill.  
 Bell, Mary E., clerk (stenographer and typewriter), Washington, D. C. (transferred to Forest Service).  
 Bovers, John F., veterinary inspector (temporary), New York, N. Y.  
 Cunningham, Samuel H., clerk, Washington, D. C. (transferred to Division of Accounts and Disbursements).  
 Darnall, Frank J., carpenter (temporary), Bethesda, Md.  
 Davies, John D., carpenter (temporary), Washington, D. C.  
 Davis, R. Nelson, messenger boy, Washington, D. C. (transferred to Bureau of Plant Industry).  
 Hall, Thomas S., carpenter (temporary), Bethesda, Md.  
 Johnson, Edward P., veterinary inspector (temporary), Chicago, Ill.  
 Knott, Arthur, plumber's helper (temporary), Washington, D. C.  
 Markland, John J., meat inspector, New York, N. Y.

Mason, Raphael, unskilled laborer (emergency), Washington, D. C.  
 Morris, David Karl, agent in scabies eradication, Albuquerque, N. Mex. (died).  
 Patton, H. Maria, clerk, Washington, D. C. (died).  
 Powers, H. R., agent in scabies eradication, Sacramento, Cal.  
 Ritzman, Ernest G., assistant animal husbandman, Washington, D. C. (transferred to Office of Experiment Stations).  
 Sherman, Joseph P., veterinary inspector (temporary), Detroit, Mich.  
 Sherwood, William S., engineer (temporary), Washington, D. C.  
 Stahl, Gerhardt C., veterinary inspector (temporary), Chicago, Ill.  
 Tillett, Edward L., engineer (temporary), Washington, D. C.

**Removed.**

Hunter, James H., meat inspector, Fort Worth, Tex.  
 Jones, George H., meat inspector, La Crosse, Wis.  
 Sweeney, George H., meat inspector, Brooklyn, N. Y.

**ORGANIZATION OF THE BUREAU OF ANIMAL INDUSTRY.**

*Chief:* A. D. MELVIN.  
*Assistant Chief:* A. M. FARRINGTON.  
*Chief Clerk:* E. B. JONES.
